Engine / Fuel Piping (Chassis)	10.15
 The diagram shows a fuel line assembly. On the left, there is a horizontal pipe with a flange and a nut, labeled '001'. This pipe extends to the right and then curves downwards and then upwards to the right, ending in a vertical pipe with a flange and a nut, labeled '002'.

Engine / Fuel Piping (Chassis)		10.15
 The diagram shows a horizontal fuel line assembly. On the left end, there is a threaded fitting with a hex nut and a lock washer, labeled with the callout '001'. The line extends horizontally to the right, passing through a vertical support bracket. On the right end, the line connects to a 90-degree elbow fitting, which is labeled with the callout '002'. The elbow fitting has a flange with multiple bolt holes, suggesting it connects to a larger component.
